Residential on 0.27 Acres

Seattle, Seattle, WA

A Mid-century modern, one-story ranch style house with a 2 car garage. Large lot with a forested area in the backyard, the lot is large enough to add a second home without taking out the forest; the forest is protected under Seattle Municipal Code 25.11. This house has an open floor plan, typical of the mid-century design. The large living room, dining and kitchen are great for entertaining and staying connected with guests. Three bedrooms and one bath are on one of the home while a large bedroom and bathroom with walk-in shower and heated floors are at the other end. There are two extra rooms behind the garage which have many uses. The floors are oak throughout except for the bathrooms.

Built in 1958
