5 Bedroom, 4 Bathroom, 3,080 sqft
Residential on 0.25 Acres

Bellevue, Bellevue, WA

Before Toyota introduced the Prius, architects pioneered their own hybrid: the Tri-Level floor plan. This visionary design blended the openness of a rambler with the privacy and separation of a two-story house. Built in 2008, this home was reimagined from the foundation up. In this modernized version of a classic, shared living spaces have been opened and brightened, an en suite bedroom with laundry was added to the main floor, and the kitchen flows seamlessly into a vaulted great room. 21st-century construction dramatically enhances energy efficiency, safety, and sound attenuation. More than just rebuilt, this home has been recently refreshed, offering a rare opportunity to enjoy a perfect balance of timeless design and modern convenience.

Built in 2008
